According to Dr. Miller, the conscious mind puts out on average between 20 and 40 neuron firings per second, while the subconscious puts out between 20 and 40 million firings per second. In other words, in measuring the activity of the subconscious mind as compared to the conscious mind, we're looking at a factor of about a million to one.

### The Conscious Person's Guide to Love Everlasting - MenAlive

Living consciously is a lifestyle, a skill, an art. It's not something you do just once, but a habit that you can form for the rest of your life. But it is deceptively simple: Be conscious, and think about, everything you do. Make conscious choices rather than doing things without thinkings.
