### Canon Exposure Compensation Manual Mode

In order to use exposure compensation, you must be in one of the camera modes that utilizes the camera meter, such as aperture priority, shutter priority, program mode, or any other "scene" mode that performs automatic exposure adjustments. Unless one has Auto ISO turned on, exposure compensation will do absolutely nothing in Manual mode ...

### What is Exposure Compensation and How to Use It

Page 119: A: Manual Exposure a: Manual Exposure You can set both the shutter speed and aperture manually as desired. While referring to the exposure level indicator in the viewfinder, you can set the exposure as desired. This method is called manual exposure. \* <a> stands for Manual. Set the Mode Dial to <a>.
