### Scan Coin Icp Active 9

tor behind the global popularity and success of our coin sorting equipment. ICP Active-9 continues the tradi-tion, incorporating newly developed sensor technology that makes it the most accurate and versatile solution available for counting, sorting and verifying coins. In addition, ICP Active-9 is the only machine on the

### SCAN COIN ICP Active-9

The ICP Active-9 Flex is designed for easy configuration for communication with external systems. Features The ICP Active-9 has a brand-new vacuum coin feeding system. The vacuum technique places the coins firmly on the rotating plate, and efficiently takes them through the sensor. Since the coins cannot end up on top of each other, the risk of jams is almost completely eliminated. Another new feature is the cast iron base that all coin processing components are fixed to.
